CH&SC 41954. (a) The state board shall adopt procedures for determining the compliance of any system designed for the control of gasoline vapor emissions during gasoline marketing operations, including storage and transfer operations, with performance standards which are reasonable and necessary to achieve or maintain any applicable ambient air quality standard.

...

(c) The state board shall certify, in cooperation with the districts, any gasoline vapor control system, upon its determination that the system, if properly installed and maintained, will meet the requirements of subdivision (a). The state board shall enumerate the specifications used for issuing the certification...

(d) The state board may test, or contract for testing, gasoline vapor control systems for the purpose of certifying them.
